

A DYNAMIC TRAVEL EXPERIENCE RIGHT AT YOUR FINGERTIPS

Offering passengers a truly
personalized flight

PASSENGERS CAN ENJOY AIRSHOW ON THEIR OWN DEVICES

The moving-map experience at its most convenient

Stay informed along your journey in a much more personal way using the Airshow® Mobile application on your iOS® or Android™ tablet and smartphone. Tap and swipe menus and views for an interactive, on-demand experience. See what you want, when you want – anywhere in the cabin.

Your Airshow experience is now more tailored than ever to your preferences. Choose your viewing device, then individualize your exploration with settings for time format, units of measurement, world clock cities, languages and more. Add value and flexibility to your cabin with the Airshow Mobile app from the company that brought moving maps to the world of flight.

FEATURES

- **Selectable map views** – Autoplay, flight preview, total route and mid-flight
- **Command center** – Multi-panel view that provides several interactive elements, including different map scenes, flight data banners and a 3D aircraft over a compass (feature available on tablets only)
- **3D time zone globe** – Using gestures, rotate the globe to see different time zones around the world, or pinch and zoom to get a closer look
- **World clocks** – Select up to nine cities to see the current time, population, elevation and distance from the aircraft
- **Window seat/panorama** – Experience the world beyond the cabin, as if looking through transparent walls and floor
- **Aircraft symbol** – Enjoy your aircraft icon and add a custom paint scheme for a more personal touch
- **Day and night sky views** – Align with the time of day at your present location
- **Portrait mode** – Turning your device vertically provides a quick snapshot of key information, including a flight progression bar and time to destination

WHAT DO I NEED?

1. An on-board Airshow system that is connected to the aircraft's flight management system and wireless cabin network that is compatible with the Airshow Mobile app. Compatible Airshow systems:
 - Airshow 4000 Mod B with Service Pack 5.2 or later
 - Airshow on Media Center in Venue™, version 4.2 or later
 - Airshow on HTSE/HDAV in Venue, version 6.1 or later
 - Version 10 software on the Bombardier Global Express
 - Airshow 500
 - Gogo ATG Platforms (ATG 1000, 2000, 4000 or 5000 with 2.8 software or its AVANCE L3, L5, SCS Elite and SCS Media with 1.2 software)
2. A modified Airshow configuration to enable the app's access to flight data.
3. The Airshow Mobile app* from the Apple® App Store® loaded onto an iOS device; or the app from Google Play™ loaded onto an Android device.

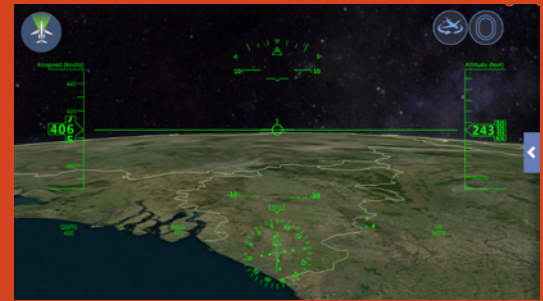

iOS

- Gen 1 (iPad®) – Airshow Mobile app works with tablets that have iOS 6.0 or later
- Gen 2 (iPad and iPhone®) – Airshow Mobile 2 app works with tablets that have iOS 9.2 or later

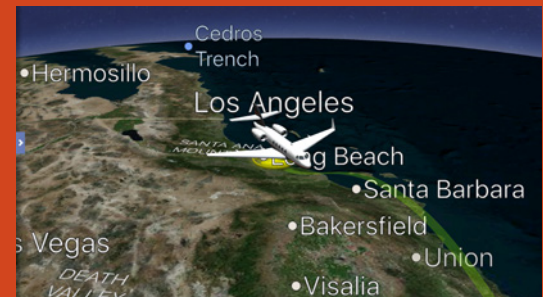

Android

- Gen 1 (tablets) – Airshow Mobile app works with tablets that have Android 4.2 through 5.1.1
- Gen 2 (tablets and phones) – Airshow Mobile 2 app works with tablets that have Android 4.2 or later

*The Airshow Mobile app is available for iPad, iPhone, Android tablets and Android smartphones. Please see the latest compatibility SIL on our Technical Publications portal for a complete list of compatible devices.
