CALIBRATION SERVICES

Collins Aerospace provides a broad range of calibration and repair capabilities for manufacturing and process equipment. Our instrument capabilities are as follows:

AC Current Sources
AC Voltage Dividers
AC Voltage Sources (Standards)
Air Data Test Sets
Ammeter
Ammeter, Clamp-On
Attenuators
Balances, Analytical
Balances, Counting
Battery Charger/Analyzers
Bonding Meters/Testers
Calipers
Communication Service Monitors
Communications Analyzers
Crimpers
Current Probes
Current Shunts
CV Plotters
Data Acquisition Systems
Data loggers
DC Current Sources
DC Potentiometers
DC Reference Divider
DC Voltage Dividers
DC Voltage Sources (Standards)
Decade Boxes
Delay Lines
Differential Voltmeters
Digital Multimeters to 6 1/2 Digits
Digital Multimeters greater than 6 1/2 Digits
Directional Couplers
Distortion Analyzers
DME/Transponder Test Sets
Dynamic Signal Analyzers
Electronic Simulation, Resistance Substituting, 4-20mA
ESD Monitors/Meters/Sensors
Frequency Counters
Frequency Standard
Function Generators
Generators
Heater Block
High Pot Tester
High Voltage Devices
Insulation Breakdown Testers
LCR Meters
Level Transmitters
Linear Measuring Devices
Logic Analyzers
Manometers
Megohmeters
Micrometers
Multifunction Meter Calibrators
Ohmmeters
Oscilloscopes
Ovens
Parts Counter
Phase Instruments
Phase Lock System
Power Meters
Power Supplies
Pulse Generators
Ratio Transformers
Resistance Bridges
Resistance Meters
Scopes
Signal Conditioner
Signal Generators
Soldering Iron Calibrators
Soldering Iron Station
Sweep Generators
Synchros/Resolvers
TCAS Test Set
Thermocouple Meters
Timing Devices
Torque Analyzer
Torque Driver
Torque Screwdriver
Torque Testers
Torque Wrenches
Transponder Test Sets
Turbine Temperature, Indication Testers
Vacuum Gauges
Vacuum Pump
Vector Volt Meters
VOM
VOR/ILS Test Set
Watt Meters
Wave Analyzers
Wave Guides
Waveform Monitors
Weather Radar Test Sets
ZIFOR (VOR Radial Bearing)
